

SKIN Innovation Challenge Workshop on “Technologies”

Hungary, 25-26 September 2018

The **aim** of the Innovation Challenge Workshop on Technologies is to gather experts, representatives of good practices and consortium partners who can share their knowledge and ideas on innovative challenges in Short Food Supply Chains (SFSCs) within the workshop. The workshop is meant to spark discussions and ideas on how these technologies are applied as good practices in the SFSCs and also discuss the challenges behind each technology.

The **hot topics** of the workshop are:

1. Primary processing
2. Production
3. Distribution, logistic
4. Consumer information – from consumers and to consumers

The **workshop** will centre around the analysis of the recurrent and emerging issues based on the good practices and other cases examined to draw future scenarios on how innovation on SFSCs could transform Europe’s agro-food sector.

The **goal** of the Innovation Challenge Workshop is to generate at least five innovative technology ideas that can be transferred into practice in SFSCs. To achieve this goal the challenges (cultural changes, financial difficulties, skills, etc.), the opportunities and also the solutions will be explored during the workshop in form of lectures, field visits and a discussion session (World café).

The **first day** will demonstrate the complexity of the topic with lectures and practical examples (field visits). The **second day** will focus on the discussion among the participants from target groups.

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement N°728055.

SKIN

First Day Agenda (25 September 2018)

Location: Sarlóspuszta (<http://www.sarlospuszta.hu>)

The transit will be organized from Budapest, Ferihegy Airport or the necessary other destination eg. railway station by bus.

Programme

Time	Activity	Speaker
11.30 – 12.30	Arrival, Buffet lunch	
12.30 – 12.45	Opening Presentation of SKIN Introduction of the ICW	Fedele Colantuono, University of Foggia ICW project partners
12.45 – 13.05	Presentation Integrating Technology into the Food Chain	Martin Collison, Director, Collison and Associates Limited, UK and SKIN Thematic Network partner
13.05 – 13.35	Presentation Digital AgriFood Technologies	Professor Simon Pearson, Lincoln Institute for AgriFood Technology (LIAT) at the University of Lincoln, UK
13.35 – 14.00	Coffee break	
14.00 – 18.00	Field visit locations: - Mini kiwi fruit plantation - Szomor Farm - Rizikó-Ker Kft. - Áperte Brewery	CBHU with the help of Judit Rácz (organizer)
18.00 – 23.00	Dinner – Deák Mansion (also a good practice) warm up discussion and networking	http://www.deakudvarhaz.com/hu/
23.00	Transit back to the hotel (Sarlóspuszta)	

Second Day Agenda (26 September 2018)

Location: Sarlópuszta (<http://www.sarlopuszta.hu>)

Main Workshop

Time	Activity	Speaker
9.00 - 9.30	Presentation Overview about the technology innovation drivers in the food sector (awareness presentation)	dr. András Sebők CBHU
9.30 - 9.45	Introduction of the workshop methodology	Gusztáv Nemes
9.45 - 10.00	Coffee break, grouping	
10.00 - 12.30	World café – discussion session based on hot topics: 1. Primary processing 2. Production 3. Distribution, logistic 4. Consumer information	4 groups moderated and helped by members of Consortium: - Collison Ltd. - Campden BRI Hungary - Wireless Info - Biosense
12.30 – 13.30	Lunch	
13.30 – 15.00	Wrap up session of the workshop	CBHU, Gusztáv Nemes

During the second day the delegates invited by the project partners (stakeholders, manufacturers, experts, representatives of good practices, etc.) can introduce themselves and show the participants their specialties through posters and brochures (designated tables will be arranged for them)

Optional

16.00	Organized transfers to Budapest OR Sightseeing tour in Budapest (According to needs of the participants; The tour ends at the airport in Budapest around 9 PM (21:00) Budapest, Hungary Time.)
