

ENABLING Project. Enhance New Approaches in Biobased Local Innovation Networks for Grows

Final Conference

EIMA International Digital Preview

Friday, 13th November 2020 - 10.00/13.00 am

Through a joint effort, the 3-year H2020 project ENABLING intends to develop the great potential of the bio-based industry, encouraging the creation of efficient and structured biomass supply chains for the production of bio-based products (BBP). To do so, ENABLING proposes tools and methodologies nurturing collaboration and knowledge transfer among practitioners in the sector, through the creation of physical and virtual spaces for sharing best practices, brokering innovation in the bio-economy and providing stakeholders with coaching and guidance on innovation.

The ENABLING Project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement n° 774578

10.00 Opening remarks
Marco Pezzini (FEDERUNACOMA EU Affairs Secretary)

10.10 Session I – European strategies for bioeconomy
(moderator: Vito Pignatelli, ITABIA)
Circular bioeconomy: EU vision
Fabio Fava, Italian representative to the European Commission DG RTD
Horizon2020 program committee
Role of agriculture for sustainable development.
Anna Vagnozzi, National Rural Network, CREA PB
Biomass resource and circular bioeconomy: goals and tools.
Carla De Carolis, ITABIA - Italian Biomass Association

11.00 Session II - The project ENABLING
(moderator: Martin Collison, Collison & Associates)
General overview on the project.
Giorgia Noaro, FEDERUNACOMA
Residual biomass for a sustainable industry.
Lalitha Devi Gottumukkala (Celignis)
Best Practices: models for innovating - Peter Parea, ZLTO
a) Case study 1 – Green building - Salvatore Pepe (CEO Mosaico digitale)
b) Case study 2 - Biobased packaging - Peter De Brujin (General Manager BeWi Synbra)
c) Case study 3 - Sustainable cleaners - Silvia Carlini (Owner Officina Naturae)
Support to business: coaching and brokerage - Jana Roels, ISP and Claudia Leifert, EPC
a) The transfer of good practices to Argentina: the prickly pear supply chain
Carlos Bernardo Cherniak (Ambassador of Argentina to FAO)
b) Materials for producing edible cups for coffee – Anna Aladjadjiyan
(National Biomass Association BGBIOM)
c) Assistance in sourcing agricultural biomass waste streams to use as carbon precursors - Moses Bosire (Postgraduate Researcher: University of East Anglia)

12.30 Session III - ENABLING heritage (moderator - George Collison, Collison & Associates)
Pathways to exploit ENABLING results and synergies with other EU Projects
George Collison, Collison & Associates
a) ECESP - Grazia Barberio (ENEA)
b) BIOVOICES - Susanna Albertini (FVA New Media Design)
c) Sustainable civil society dialogue for sustainable development (SCSD-SD)
Eugenio Barchiesi (Kyoto Club)
d) BIOLADY Network – Iris Aquilina Anderson (BIOLADY Network)
